A Health Plan Made for Independent Workers

You work for yourself — but you shouldn't have to navigate health coverage by yourself. OneHealth Plus offers benefits built for the way you work.

Whether you're a solopreneur, gig worker, freelancer, or otherwise self-employed, **you deserve the same high-quality health coverage as anyone with a traditional 9 to 5** — without the corporate red tape or high costs.

This private program offers comprehensive coverage and could help you **save 20-40%** compared to top-tier ACA plans in your state's marketplace.
